* Because we use many natural ingredients, color, texture, and consistency will vary.

Our consumer driven product line is profitable for retailers of all sizes throughout the country. We take pride in our reputation of creating the highest quality products in the industry while always being able to ship complete orders on time. We're able to continue to maintain these standards with continued investment in quality testing and controls, state-of-the-art computerized production, and custom computerized programming for all departments. We have a great team of employees that take pride in what they've helped to create along with a top notch team of reps and suppliers that continue to help us grow in today's ever changing climate.

We promise to continue offering our consumer products that give them **THE BEST VALUE FOR THEIR DOLLAR SPENT IN THE WILD BIRD INDUSTRY.** We will continue to invest in our company to maintain the quality and service that is needed for the years ahead.

Kevin & Karen Alstott

Owners & Founders of C&S Products Co., Inc.

Thank you to our loyal consumers for providing some of the photos featured on the cover and inside the catalog.

NUGGETS™

C&S HAS REVOLUTIONIZED THE WILD BIRD FEEDING INDUSTRY

once again with our Nuggets™ line. This formulation has a high-energy fat base and is processed even further to produce a soft nugget that is appealing to suet, insect, and fruit eating songbirds. There are six flavors with one designed for Bluebirds. These products are nitrogen flushed and packaged in resealable bags. They can be fed alone in C&S's specially designed feeders or mixed with your favorite seed mix.

NO MELT SUET DOUGH DELIGHTS

BLENDING THE SAME HIGH QUALITY BEEF FAT with a base of corn meal and roasted peanuts produces C&S Delights. Other ingredients are added and mixed into a soft dough texture and then pressed into a cake form. C&S's process, unlike others who pour their dough products into a tray, creates the only *true* no melt suet product line in the world. This produces products unmatched in the industry for year round feeding in all types of weather.

SUET TREATS

C&S SUET TREATS are produced by melting the highest quality beef fat; blending a variety of seeds, nuts, and fruits which are then poured into our tray and allowed to harden. Treats will become soft and pliable at 100 degrees if exposed to extreme heat during shipping and storage but will return to normal hardness again at room temperature. C&S's quality and special processes allow suet to be fed year round resulting in summer suet feeding success by our consumers.

SNAKS™

C&S SNAKS™ have revolutionized the seed cake industry. These innovative seed cakes are held together with gelatin and are mixed with the finest fruits, nuts, seeds, and now C&S SUET NUGGETS™. SNAKS™ come in large cakes, bricks, and also the popular wreath shape. Several different mixes are available for wild birds and wildlife. SNAKS™ create less mess, less waste, and are longer lasting than regular wild birdseed mixes. They attract the same wild birds as seeds but do not replace suet in a balanced wild bird diet.
